Externally, the look and design catches your eye. This is a great home for the first home buyer, young family or downsizer. It represents quality and real value. Coming through the garage armed with your grocery shopping straight into the kitchen makes perfect sense.

A good sized modern kitchen overlooking the dining room means it is a great space for family chats and cooking together. A great sized Master suite for parents to relax at the end of a busy day. A great living room for the whole family to relax and spread out. This home is definitely your sanctuary.

LIVING 128m² GARAGE 36m²
TOTAL = 164m²
